THE YOLO DEMOCRAT.

Saturday, March 19th, 1870.

C. O. D.—Grant says he never knew what "C. O. D." meant till that ten dollar dog came to him—Collect On Dog.

CAMILLA URSO.—This lady is announced to give entertainments on the 5th of April at Suisun, and on the 25th inst. at Vallejo.

POWDER MILLS EXPLOSION.—The Powder Mills near Santa Cruz exploded on the 11th inst., seriously if not fatally injuring three persons.

NEW STAMPS.—The new postage stamps will be issued about the 1st of April. They are said to be more appropriate than those now in use.

FAVORS.—We are indebted to Hon. J. A. Johnson, Representative in Congress from this district, for various favors in the way of public documents.

P. M. S. S. Co.—It is again rumored that the steamships of the Panama line are to be withdrawn, and that they will be employed in the Australian and Chinese trade.

A SOUTHERN HOUSE.—San Francisco is about to establish a southern house for the benefit of the poor. Such a thing has heretofore been unnecessary and hence unknown on this coast.

CALIFORNIA SENDING HOPS TO EUROPE.—Sacramento sent down the river the present week a thousand bales of hops, consigned to parties in Europe. They were all raised in Sacramento and adjoining counties.

SUSPENDED.—The San Francisco Tribune has suspended publication, and Jack Stratman writes the valedictory, availing himself of the occasion to write in a history of his own somewhat notorious life in California. Good bye, John.

SCHOOL FUND APPROPRIATION.—The State Superintendent has made his appropriation of the School Fund. The ratio is two dollars to each child. The number of children in California is returned at 112,750. The total amount distributed is \$225,500.

NEW HAMPSHIRE ELECTION.—The latest news from the Republican candidate for Governor, by about 1000 majority, a loss of over six thousand on Grant's vote. The Senate stands four Republicans, four Democrats, one Labor Reform and one vacancy, while the House is Republican.

EXPORTS FROM SAN FRANCISCO.—According to the circular of San Francisco exported, between July 1st, 1869, and Feb. 26th, 1870, as follows: Flour, 252,755 barrels; wheat, 3,900,131 cents; barley, 202,944 cents; oats, 6,121 cents; wool, 8,069,697 pounds; hides, 64,439; wine, 7,703 packages; mustard seed, 9,243 cents; beans, 1,503 cents.

REMARKABLE SNOW STORM.—A snow storm of the most unprecedented violence commenced here yesterday, (Chicago, March 11), about six P. M., and in less than three hours so great a quantity of snow had fallen that the street cars were obliged to stop and locomotion of every kind was difficult. The storm continues with unabated violence. Telegraphic communication with the East is interrupted. The trains on the Minnesota and Wisconsin trains are snowed in.

PROLIFIC ORANGE TREES.—The Los Angeles News of the 9th inst., has the following: Some weeks ago we noticed a cluster of upwards of forty oranges depending from a single branch. Yesterday, we noticed at R. Malloy's saloon, a similar but still larger cluster. This branch, some two feet long, and the size of one's finger, has sixty-four good sized oranges. Four fell off in bringing them from the orchard. By its side hangs a cluster of sixteen depending from a small stem. This specimen of prolific bearing came from the orchard of Hon. B. D. Wilson.

GOOD RETORT.—An Eastern paper, referring to Senator Casserly's bold and able stand for his country first and then for his party, says: "It was a capital hit by Senator Casserly on Friday last, when repelling a taunt of the numerical weakness of the Democracy in the Senate, he said: 'He thanked God none of them had been elevated to the Senate by bayonets over the heads of a down-trodden and oppressed people.' A dozen or so Radical carpet-baggers, the mere creations of military satrapism, have seen stars about that time."

TWO SEVERE.—A teacher in the public schools of San Francisco named Robertson, has been sentenced by Police Judge Sawyer to imprisonment in the County Jail six months for flogging a refractory boy whom his female teacher could not manage. We are by no means in favor of flogging, but as no bodily harm was done and as it was the duty of teachers to enforce the rules of the schools, it seems to us to be altogether too severe a sentence. Robertson was sent to jail, but afterwards admitted to bail, Superintendent Fitzgerald standing by him and even going with him to the "den of thieves."

TREES ON HIGHWAYS.—A law of the State to encourage farmers and others in planting trees bordering public highways, allows a premium on trees that have been so planted at the end of four years, provided they are in a thrifty and healthy condition. In a county like Yolo, where a green stick stuck in the ground at the right season soon becomes a tree, many farmers will certainly ornament our highways by planting the trees for which premiums are allowed in this county—cottonwood, locust, black walnut, poplar, elm and maple. Every tree planted of course enhances the value of lands adjoining.

Interesting to Wheat Growers.

We have before referred to the outrages practiced by shippers in compelling farmers to pay the enormous port charges levied on vessels loading with wheat at San Francisco, and also endeavored to show that by shipping wheat at Vallejo, a large amount would be saved to the producer. The Solano Democrat, published at Vallejo, has an able article on this subject, of which the subjoined is a portion:

"The fact being established that bulk shipments are safe, and that wheat may be transported to market from seven to eight dollars per ton cheaper than in sacks, we conclude that the producer will insist on the adoption of this method. He would be stupid indeed to encourage the continuance of the old system of shipping in sacks, when he loses thereby seven or eight dollars by every shipment. This loss, to which California farmers have been compelled to submit heretofore, is in itself a handsome profit. The producer who raises only fifty tons of wheat for market is thus cheated out of about \$400, and the loss of course is large in proportion to the greater number of tons sold; for, as we have shown again and again, every farthing with which wheat is taxed in reaching market is taken from the profits of the farmer. This is the reason why wheat speculators are loath to resort to shipments in bulk. They are not interested in a change because they make the producer pay all the expenses, and secure themselves against loss by regulating the price in the home market so as to cover all expenses. The system must be inaugurated by the producers themselves. They are alone interested because they are the only losers. How can they compel a resort to bulk shipments? It may be done without difficulty. Let them ship their wheat in bulk to the Elevator to be garnered and stored until disposed of. When they offer to purchasers the latter will find that it is in bulk. They will pay the market price and then consider whether it would be better to ship in bulk than to have it sacked. It will then appear that it is to their interest to ship in bulk and they will do so accordingly. So long as the wheat comes to market in sacks, the shipper is not interested in bulk shipments, because he can make just as much money by paying a lower price and shipping in sacks as by paying more and shipping in bulk. But the moment he is compelled to purchase in bulk he will begin to consider how he can send it to market most cheaply, and then bulk shipments are assured. Producers will see by this method alone can they make purchasers equally interested with them in reducing the expense of sending wheat to market, and when they accomplish this, they will begin to realize the advantages of shipping in bulk. "We trust that farmers will give heed to these suggestions and act upon them. We are sure they will derive great benefit from them; and that hundreds of dollars may be saved in this way."

NEW RAILROAD INCORPORATION.—The Benicia and Red Bluff Railroad Company has filed its certificate of incorporation in the office of the Secretary of State. A bill has also passed the Senate authorizing the counties of Solano, Yolo, Colusa and Tehama to vote the construction of the road. If this bill becomes a law, and the counties vote the aid solicited (which we doubt), the projected road will have a rival. Doubtless the Benicia line would benefit the western portion of this county, and perhaps the whole route proposed to be traversed by it, but it seems to us the people of Colusa and Tehama are not going to vote aid to the new company to build a road twice the length of the one proposed from this place under the management of the California Pacific Coast. They must see that their true interests lie in securing first the California Railroad, and we have no doubt that if the matter is thoroughly understood they will so determine.

A VALUABLE INVENTION.—We clip the annexed from the San Francisco Chronicle: "The long vexed question how to utilize our extensive tule lands seems to be at last settled. Mr. Robinson, of the firm of Sullivan, Sanborn & Co., has patented a machine for trenching them, and after a trial of three weeks on an island in Suisun Bay, it has been pronounced a decided success. The machine is built on a saw that floats in a ditch cut by itself, and is provided with knives and scoops that cut and throw on each side of the ditch the earth that it takes out in its progress. It is worked by an engine of ten-horse power and requires three men to attend to it. The cut made by it is twelve feet wide by three and a half deep. It throws out about one and a half cubic yards a minute, and it is expected that when the men shall have become better acquainted with its working the amount will be increased to two yards a minute."

THE IMMIGRANT UNION.—We learn from the Reporter that over three hundred immigrants have been furnished with information at the office in San Francisco since its establishment six months ago, regarding lands, and more than eighty families are now occupying farms, principally in the San Joaquin Valley, through the Immigrant Union's assistance. Through its aid, also, a party of Illinoisans purchased farms of 640 acres each at three dollars an acre, currency, and were at work on their land within a fortnight after their arrival. The leader of the party assures the Superintendent that he would not take a thousand dollars for his bargain.

ST. PATRICK'S DAY.—The Irishmen in San Francisco celebrated the anniversary of their patron saint with a great deal of spirit.

"Let the Galled Jade Wince."

The Mail, but a short time ago, volunteered the remark "to the victors belong the spoils," in speaking of the county printing, etc. Since the Bill to Protect Litigants is pretty sure to become a law, however, it waxes very warm, and flounders fearfully. "We are beginning to fear they will pass a law prohibiting Republican papers to be issued in the State," quoth the Mail. Never fear, neighbor. Democrats will not stop so low. We, as a party and as individuals, leave such wicked work as suspending newspapers and destroying printing offices, because they exercise the Constitutional right of freedom of the press, to Republicans. This has been done by them, time and again, within the last ten years, and no amount of squirming or denials will disprove the fact, for it is patent to all. Several instances have come under our own observation, and there have probably been a hundred others in the Northern States, for many of which the tax-payers have had to smart roundly, as in San Francisco, in footling the bills brought for damages. But don't be afraid, neighbor; Democrats will not retaliate in kind; they'll not hurt you, though they be as three to one. Our very superiority of course we mean in numbers, would even we were otherwise disposed, make us magnanimous; and there's not a man among us would strike a false blow. But, seriously, we sympathize with our neighbor. Having for years published a Democratic paper when the State and county were strongly Republican, and when it was a rare occurrence to get a legal advertisement of any kind, we feel competent to, and do hereby extend our heart-felt sympathy and condolence. But as Republicans give their party organs the printing when in power, those papers should not complain because Democrats propose to do the same, more especially as the rates are reduced from the prices they have received for the same work. It comes with very bad grace from them. Hence we say, "let the galled jade wince."

A CAPITAL HIT.—The following is an extract from a speech of Hon. James A. Johnson, on the removal of the National Capitol, as published in the Congressional Globe. It is an admirable take-off on the unbecoming speeches delivered in Congress on the subject:

County Licenses.
 During the past three months a large number of Licenses have been issued in this county, and this important branch of the public revenue under the present administration of County officers is yielding its proper proportion of State and County revenues. Section 77 of the Revenue Laws makes it the duty of the Tax Collector to make diligent inquiry and examination as to all persons in his county liable to pay license, and to require all Delinquents to settle up. This duty he has been, and is now actively engaged in performing, and there can be no valid excuse rendered by Delinquents for a failure on their part to comply with the law, a violation of which incurs a severe penalty. In view of the fact that the Grand Jury will convene in a few days it would be well for all persons transacting business subject to license to examine their accounts with the Tax Collector, and if in arrears, to make settlement without delay. It is clearly the duty of the Grand Jury to take cognizance of all violations of the Revenue Law, as well as other matters pertaining to the public good.

The law requires a license tax to be paid by every proprietor or keeper of a Billiard Table or Bowling Alley, manager or lessee of every theatre, pawnbroker, keeper of every stable, coach, broker, banker, dealer of every stable, merchant, liquor dealer, traveling merchant, peddler, keeper of horses, etc., etc. We learn that the provisions of the law will hereafter be strictly enforced, and therefore much trouble and expense may be saved by a prompt compliance on the part of all interested.

A Suggestion.
 Mr. Entress: Taking a ride a few days ago in the vicinity of Woodland, I had occasion to observe the anomalous fact that while the country inside of the fields was beautifully level and dry, the roads were generally in extremely bad order and apparently entirely destitute of such an officer as a Road-Master. The road between Woodland and the fine race track of the Woodland Park Association—which is more used than any other road leading to town—is a horrible imposition and an outrage upon any civilized community. If there is no Road-Master in this part of the county, or if he will not do his duty, or if the Board of Supervisors will not allow his bills for work, perhaps the people having occasion to use this deleterious piece of road would do well to make up a little subscription and at least fill some of the numerous mud-holes and break-neck places between Woodland and the Park track, for this road could be made a most delightful drive for those of us who believe in the luxury of an occasional ride for recreation and health. The hundreds of people who have to use this road in passing to and from Woodland, will undoubtedly join in the general expression of indignation which comes from every citizen of Woodland who has any interest in the prosperity and respectability of our town. Providence in Time.
 We learn that but a few weeks before his sudden and unexpected death, the late H. P. Peterson effected an insurance upon his life for three thousand dollars.

Confidence Man in Limbo.

A man named Murry, who has for a week past been hawking some kind of patent medicine on Main street, suddenly left town the other day without paying his bill at the Hunter House. Complaint was entered against him, and Under Sheriff Henry followed him to Sacramento where he was found and after some parleying arrested and brought back to Woodland, where he is again boarding without pay, but this time in jail, Justice Peterson having ordered that he be placed under bonds of \$200 to appear before the next grand jury.

Justice's Court.

The case of G. W. Cord vs. Frank Muller, was tried before Justice Peterson, on Friday evening last, being under charge of venue from Davisville, where the case had been previously tried and judgment rendered for the plaintiff. The jury after being out all night failed to agree. A second jury rendered a verdict of cost of suit in favor of defendant. It was appealed to the County Court.
 J. W. Jacobs vs. John Plummer—Assault and battery—laid before Justice Peterson on Thursday. Case continued until Saturday.

Lost a Treat.

Owing to the rain and mud, we presume, there were so few out on Thursday evening at the Court House, that Mrs. Field did not deliver her lecture, as previously announced, on "The Extravagance of the Times," and consequently the people of Woodland missed a rare treat. Mrs. Field lectures in Vallejo this evening, and within a few days at Sacramento.

True Energy is Bound to Win.

The Committee in charge of the Festival of the Catholic Church are determined to make it a success. They have advertised in all the county papers and also in the Sacramento Union and Reporter, besides distributing cards, etc. If anything will draw a crowd that will, we look for a great success and the early completion of their fine church.

Changed Hands.

The steam flouring mills in this place, which have the past two years been owned and run by S. H. Hunsburg & Williamson, have been sold to J. M. Rhoades, and we understand will hereafter be managed by Mr. Eastman, late of the Eagle Mills at Knight's Landing. The old first request parties owing them to settle up immediately.

Look Out for Fun.

The original Mart Taylor holds forth to-night at Templar Hall. He is original, witty, comical, and extremely entertaining. Everybody who wants to enjoy an evening should go and see for themselves. To-night is the time, at Templar Hall, and the world-renowned Mart Taylor the performer.

Rain.

It rained very steadily in this vicinity all Wednesday night and part of Thursday, giving the ground a thorough soaking. All fears are allayed as to any lack of rain in the Sacramento Valley. From every part of the county we receive most favorable reports as to the condition of the crops.

U. S. Revenue Assessor.

Attention is called to the advertisement of J. B. Richardson, Assistant U. S. Revenue Assessor, for this District. It will be seen that changes are made in the time of his visits to Colusa, Knights Landing, Buckeye, Cottonwood and Washington.

Temperance Sermon.

We are informed that Rev. J. N. Pendegast will preach a sermon in the Christian Church, on Sunday (to-morrow) evening, on "Temperance, viewed from a Bible standpoint."

MARRIED.

Near Woodland, March 18th, by Elder J. N. Pendegast, Wm. D. Campbell to Miss California Spurgeon.

DIED.

At Upper Lake, March 2d, RICHARD, only son of Wilburn and Abby Smith, aged 9 years. Near Cottonwood, Yolo county, March 10th, Mrs. Mollie Goodson, aged 19 years.
 Near Cottonwood, Yolo county, March 14th, after a lingering illness, A. H. Willard, aged 58 years.
 [Deceased was among the first settlers in Yolo county, having immigrated with his family some Wisconsin in 1851, and has resided in this county nearly nineteen years. He was the father of fourteen children—seven sons and seven daughters—nine of whom survive him. He possessed much energy of character, and was noted for his high sense of honor. He was a kind husband and father, and a worthy citizen. His family and many friends deeply lament his loss.]

SPECIAL NOTICES.

An exchange says: "The surprising curative efficacy of Dr. Walker's Vinegar Bitters, in a great variety of chronic diseases, especially of those which prove obstinate, and incurable by ordinary treatment, cannot be explained. Nature, aided by art, has here provided a rare combination of medicinal properties, wisely adapted to the cure of diseases common to all mankind."
